Dear Director Kappos:

This is concerning the applications for patent term extension for U.S. Patent Nos. 6,525,060; 7,265,124; 7,250,419; and 6,251,910, filed by AstraZeneca UK Limited, under 35 U.S.C. 156. The human drug product claimed by the patents is BRILINTA (ticagrelor), which was assigned new drug application (NDA) No. 22-433.

A review of the Food and Drug Administration's official records indicates that this product was subject to a regulatory review period before its commercial marketing or use, as required under 35 U.S.C. 156(a)(4). Our records also indicate that it represents the first permitted commercial marketing or use of the product, as defined under 35 U.S.C. 156(f)(1).

The NDA was approved on July 20, 2011, which makes the submission of the patent term extension applications on September 9, 2011, timely within the meaning of 35 U.S.C. 156(d)(1).

Should you conclude that the subject patent is eligible for patent term extension, please advise us accordingly. As required by 35 U.S.C. 156(d)(2)(A) we will then determine the applicable regulatory review period, publish the determination in the *Federal Register*, and notify you of our determination.

Please let me know if we can be of further assistance.

Sincerely yours,

Jane A. Axelrad  
Associate Director for Policy  
Center for Drug Evaluation and Research
